Practice Assessments:
The practice assessments for Mathematics 5 and 9 and for English Language Arts (ELA) 7 are now available! They can be accessed in the online platform by following this link: https://studentassessment.saskatchewan.ca.

These practice assessments are intended to provide teachers, students and parents/caregivers with the opportunity to become familiar with the online platform on which students will complete the assessments. These practice assessments also reflect the structure, format, and types of questions students can expect to respond to on the field tests in Spring 2026. Although we are releasing these practice assessments this fall for the purpose of familiarization, it is important to note that they reflect the ***year-end curriculum expectations***.

Please note that a PDF version of the assessments, as well as additional supports for teachers and principals, will be provided in the upcoming months as we approach the field tests in Math 5 and 9 and ELA 7. We will also share communication deliverables with you to support your communication with parents and caregivers.
