

## Downloading Videos from Popular Websites for Educators

The rules regarding the downloading of videos from various video websites vary from site to site. Each website has its own Terms of Use that determines, among other things, whether the user can download a video to be shown later or whether the user can only show the video by streaming its content directly from that particular website.

Each employee of our School Division must adhere to the Terms of Use of each of these websites as well as the Acceptable Use Policy of the School Division.

While it is legal to live stream a video from any website, this process can severely cripple the school division's network if a number of teachers/students are streaming videos at the same time. When downloading such videos, it is best practice to download them outside of school hours. Another option is to download and save these videos at home and then bring them to school on a flash drive.

**Here are the rules from some of the most popular video sites for Educators.**

### YouTube

YouTube's terms of service can be found at the following website

<http://www.youtube.com/t/terms>

Within YouTube's Terms of Service, **Section 5, Your Use of Content, Section B** it is stated, "You shall not download any Content unless you see a "download" or similar link displayed by YouTube on the Service for that Content. You shall not copy, reproduce, distribute, transmit, broadcast, display, sell, license, or otherwise exploit any Content for any other purposes without the prior written consent of YouTube or the respective licensors of the Content."

YouTube allows users to mark their videos with a Creative Commons **CC BY** license. Creative Commons licenses provide a standard way for content creators to grant someone else permission to use their work. By marking your original video with a Creative Commons license, an individual is granting the entire YouTube community the right to download, reuse and edit that video. **As a result, teachers are permitted to download YouTube videos that are posted under the Creative Commons license only. Teachers can then save these particular videos for displaying within their classroom and retain them for future use.**

### Creative Commons

Creative Commons licenses provide a standard way for content creators to grant someone else permission to use their work. YouTube allows users to mark their videos with a Creative Commons **CC BY** license. These videos are then accessible to YouTube users for use, even commercially, in their own videos via the YouTube Video Editor.

To see if a YouTube video has a Creative Commons License, please follow the example below. **Search for a video title and then click on the Filter button. Then click on Creative Commons.**

## Learn 360 Terms of Use

### Learn360

Learn 360's Terms of Use can be found at the following website

<http://www.learn360.com/UserTerms.aspx?site=canada>

Within Learn360's Terms of Use, under the section entitled **Use of the Material**, it says, "Subscriber may download, solely in connection with non-commercial educational use, copies of the Material designated on the website as "Downloadable". Copies of downloaded Material must be deleted or erased after use, termination of this Agreement, or termination of Subscribers registration- whichever occurs first. Any and all downloading shall be for individual Subscriber convenience only, and Subscribers may not (i) systematically download any of the Material; (ii) create distribution libraries from the Material; or (iii) sell, rent, display, exhibit or otherwise transfer any of the Material to any third party outside of the Subscriber's classroom."

**As a result of these Terms of Use, a teacher is permitted to download a video from the Learn360 website but they must delete the video once it has been shown.**

To download a particular video from the Learn360 website, login to the website using the username and password provided, click on the video and then select the **Download** button which appears below the video that you have selected. Now you can save the video for playback.

The screenshot shows a web browser window displaying a video player on the Learn360 website. The browser address bar shows the URL: <http://www.learn360.com/ShowVideo.aspx?lid=15934463&Se>. The page title is "Learn360 - Player Pa...".

On the left side, there is a "Narrow Your Search:" section with the following filters:

- SUBJECT AREA**
  - Arts (1)
  - Language Arts (1)
  - Science and Technology (8)
- GRADE**
  - Pre K - 2 (1)
  - 6-8 (1)
  - 9-12 (8)
- MEDIA FORMAT**
  - Full Videos (4)
  - Video Clips (5)
- RELATED SEARCH TERMS**
  - global warming (9)
  - environment (7)
  - Feature Films (7)
  - documentary (6)
  - pollution (5)
  - mining (4)
  - coal (4)

The main content area shows "You Selected:" with a search text of "global warming". The video title is "An Inconvenient Truth". The video player shows a progress bar at 00:01:51 / 01:36:38. Below the video player, the "DOWNLOAD" button is circled in red. To the right of the video player, there are options to "Add to Favorites", "Add to Playlist", and "Add to Assignment", along with a "RESOURCE" button and a "Rate it:" section showing an average rating of 4 out of 5.

Below the video player, there are tabs for "About", "Share", "Resources", "Standards", and "Citations". The "About" tab is selected, showing "More In Series: Feature Films", "Grade(s): 9-12", and "Run Time: [01:40:00]". The text below the tabs reads: "Director eloquently weaves the science of global warming with Mr. Gore's personal history and lifelong commitment to reversing the effects of global".

At the bottom of the page, there is a download dialog box with the text: "Do you want to open or save 1\_14035\_384k.wmv (1.11 GB) from wpc.c124.edgecastcdn.net?". The dialog box has buttons for "Open", "Save", "Save as", and "Save and open". The "Save as" button is circled in red.

Feature Films have digital protection and are set to expire 24 hours after they are downloaded.

## Teacher Tube Terms of Use

### Teacher Tube

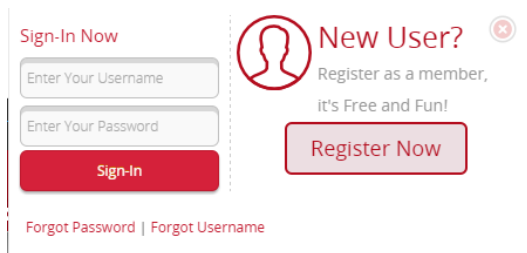

Teacher Tube's Terms of Use can be found at the following website

<http://www.teachertube.com/terms-of-use/>

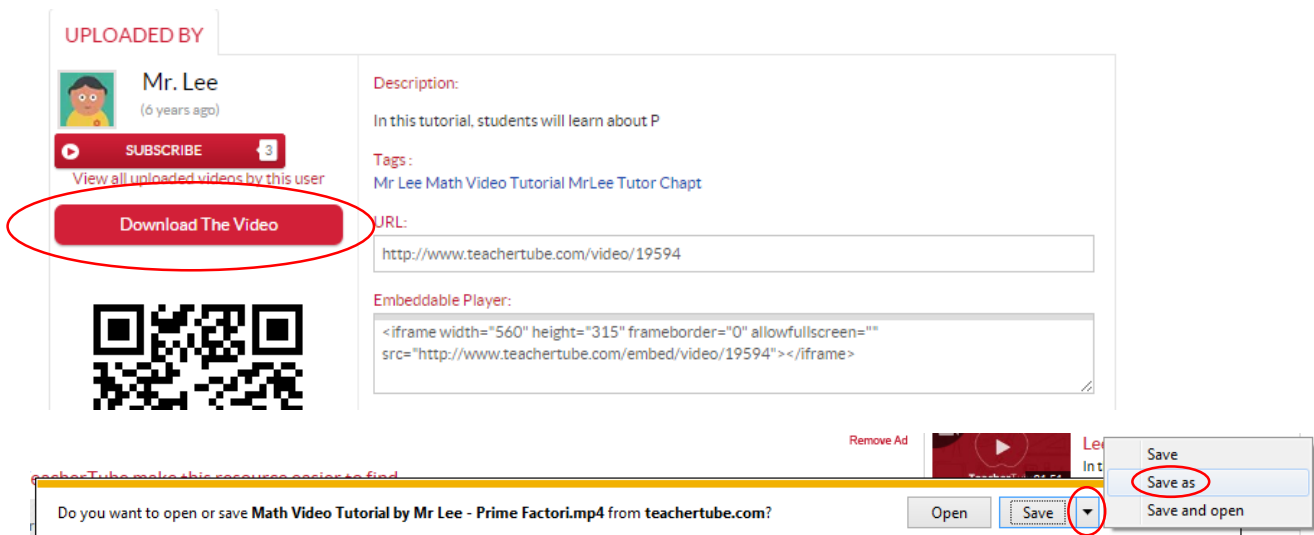

Within Teacher Tube's Terms of Use, Under **Section 5, User Submissions, subsection F** it states, "Teacher Tube provides the ability to download videos to your computer for personal or classroom educational use only, provided you give a link back to Teacher Tube in any presentation, website, or other form of media in which the downloaded video is included and give credit to the author of the video."

**As a result of these Terms of Use, a teacher is permitted to download a video from the Teacher Tube website. However, they must delete the video once it has been shown.**

To download a particular video from the Teacher Tube website, first login to the website using your username and password (or register as a new user for the site if you have yet to sign up). Next, click on the video and then select the **Download** button which appears below the video that you have selected. Now you can save the video for playback.

The image shows the login and registration section of the Teacher Tube website. On the left, under "Sign-In Now", there are two input fields: "Enter Your Username" and "Enter Your Password", followed by a red "Sign-In" button. Below these are links for "Forgot Password" and "Forgot Username". On the right, under "New User?", there is a profile icon, the text "Register as a member, it's Free and Fun!", and a red "Register Now" button.

The image shows a video page on Teacher Tube. The video is uploaded by "Mr. Lee" (6 years ago). There is a "SUBSCRIBE" button and a "Download The Video" button, which is circled in red. Below the video is a QR code. The video description is "In this tutorial, students will learn about P". The tags are "Mr Lee Math Video Tutorial MrLee Tutor Chapt". The URL is "http://www.teachertube.com/video/19594". The embeddable player code is provided. At the bottom, there is a download dialog box with the text "Do you want to open or save Math Video Tutorial by Mr Lee - Prime Factori.mp4 from teachertube.com?". The dialog has "Open", "Save", and "Save and open" buttons. The "Save" button is circled in red, and a dropdown menu is open, showing "Save as" and "Save and open" options, with "Save as" also circled in red.

## Ted Talks Usage Policy

### Ted Talks

Ted Talks Usage Guidelines and Creative Commons License can be found at the following websites:

<http://www.ted.com/about/our-organization/our-policies-terms/ted-talks-usage-policy>

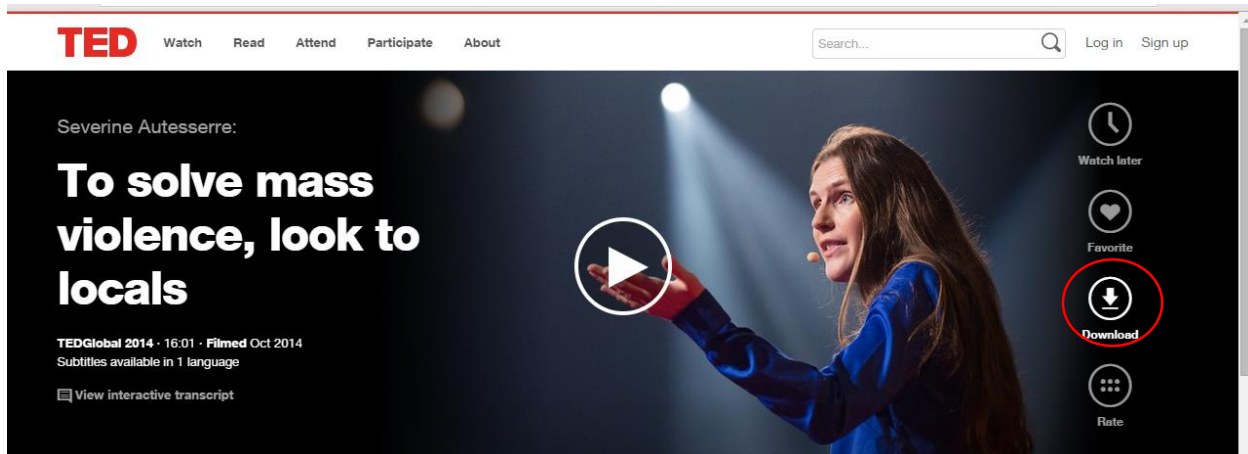

<http://creativecommons.org/licenses/by-nc-nd/3.0/>

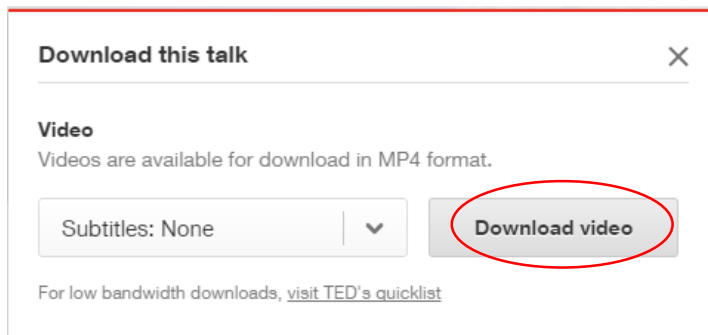

Videos from this site can be downloaded and shown in the classroom as long as you comply with the terms of the Creative Commons license and the Usage Guidelines. **The teacher must delete the video that they have downloaded from the Ted Talks website once it has been shown.**

Within the Ted Talks Usage Policy it states, "We make TED Talks available under the Creative Commons license "Attribution - NonCommercial - NonDerivative" in order to allow non-commercial entities (like bloggers, educators and groups of friends) to use them freely and easily. Important restrictions apply, though, particularly for corporations. TED's Creative Commons BY-NC-ND license allows you to display TED Talks under the following conditions:

- **Attribution (BY):** You must explicitly reference TED as the original source of the materials, and TED's logos within the videos and visuals as well as those of the TED Talks sponsors remain untouched and unedited.
- **NonCommercial (NC):** You can't use TED Talks (or any parts of them) for commercial purposes. If you are a company wishing to create a TED branded content offering, you will require a Distribution Partner License Agreement with TED. Please fill out our media licensing request form to explore the opportunity.
- **NonDerivative (ND):** You cannot alter the videos in any way. This means you cannot edit, remix, cut, shorten, add overlays to them, or, well, alter them in any way.
- These conditions can be modified only by explicit permission of TED Conferences LLC."

To download a particular video from the Ted.com website, click on the video and then select the **Download** button which appears to the right of the video that you have selected. Next, click **Download Video**. After the video finishes downloading, save the file to your H drive in order to play the video back. Downloading a video from Ted.com works better using the Google Chrome web browser.

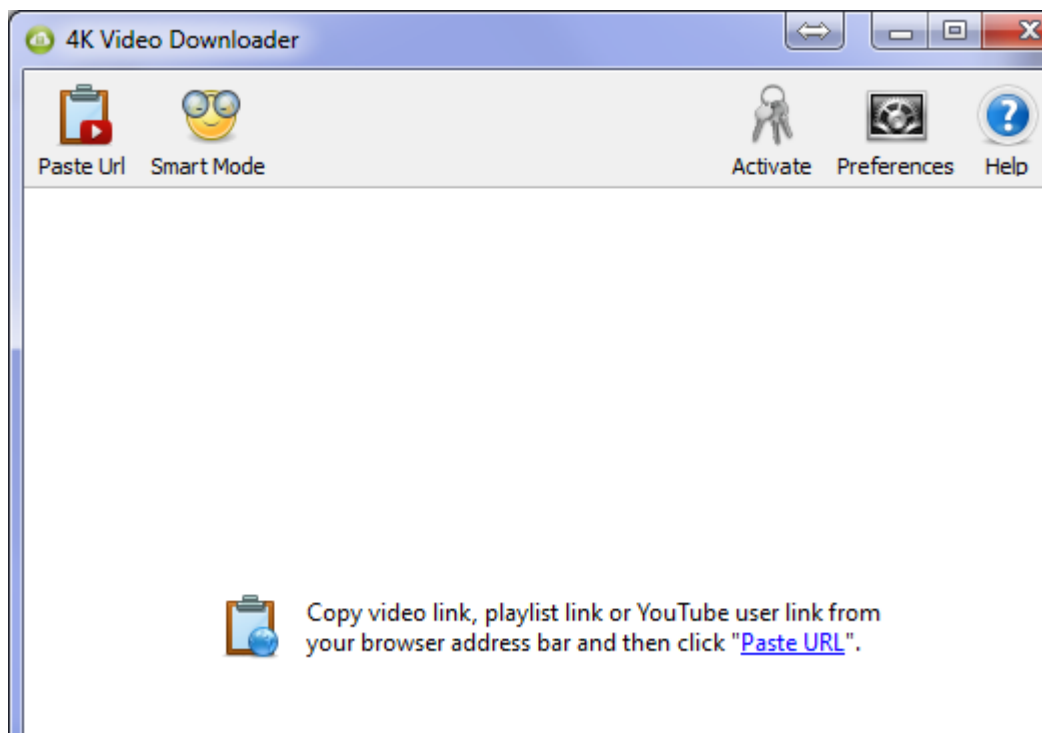

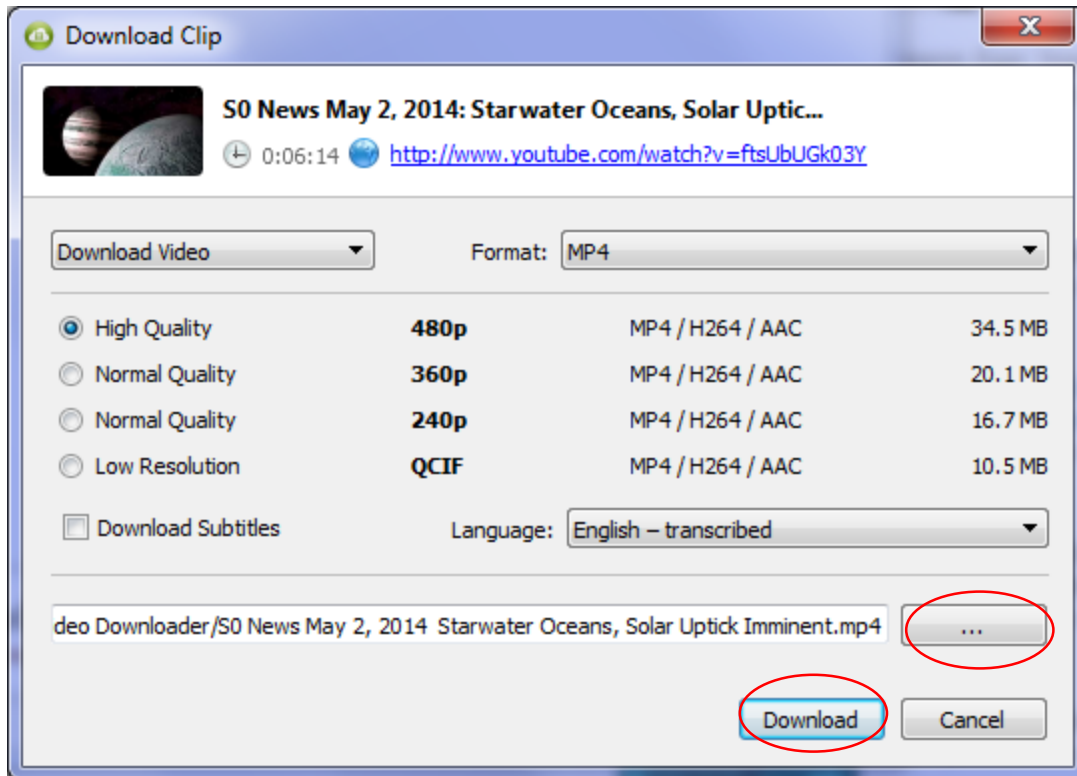

The 4K video downloader software program can also be used to download videos from the YouTube, TeacherTube and Ted.com websites. It does not work with the Learn360 website. You will find this 4K video downloader software in the list of programs installed on your computer.

### Using 4K Video Downloader

1. Copy the website address of the video that you want to download
2. Open the 4kvideodownloader software

3. Click "Paste Url" in the top left corner

Then pick your video quality, select the ellipsis button and choose a folder on your H drive to Save the file to. Now click Download.

**Remember that only YouTube videos that are posted under the Creative Commons license are allowed to be saved and kept for future use. Other downloaded videos from the above mentioned sites must be deleted after they are shown.**
